THE ORACLE

The Oracle is more than a vessel; she is a sanctuary at sea—a handcrafted phinisi designed to take you beyond the ordinary, where horizons stretch endlessly and time slows to the rhythm of the ocean. Sailing through the Indonesian archipelago, each day reveals a balance of calm, beauty, and quiet exploration.

BORN OF VISION MADE FOR THE SEA

Born from the vision of Blue Karma, The Oracle is a refined sanctuary at sea, created to bring balance, beauty, and a sense of belonging since her launch in July 2019.

At 35 metres, she journeys through Indonesia's most breathtaking regions, from Komodo's wild islands to the tropical waters of Raja Ampat, where adventure and stillness exist in perfect balance.

DESTINATIONS

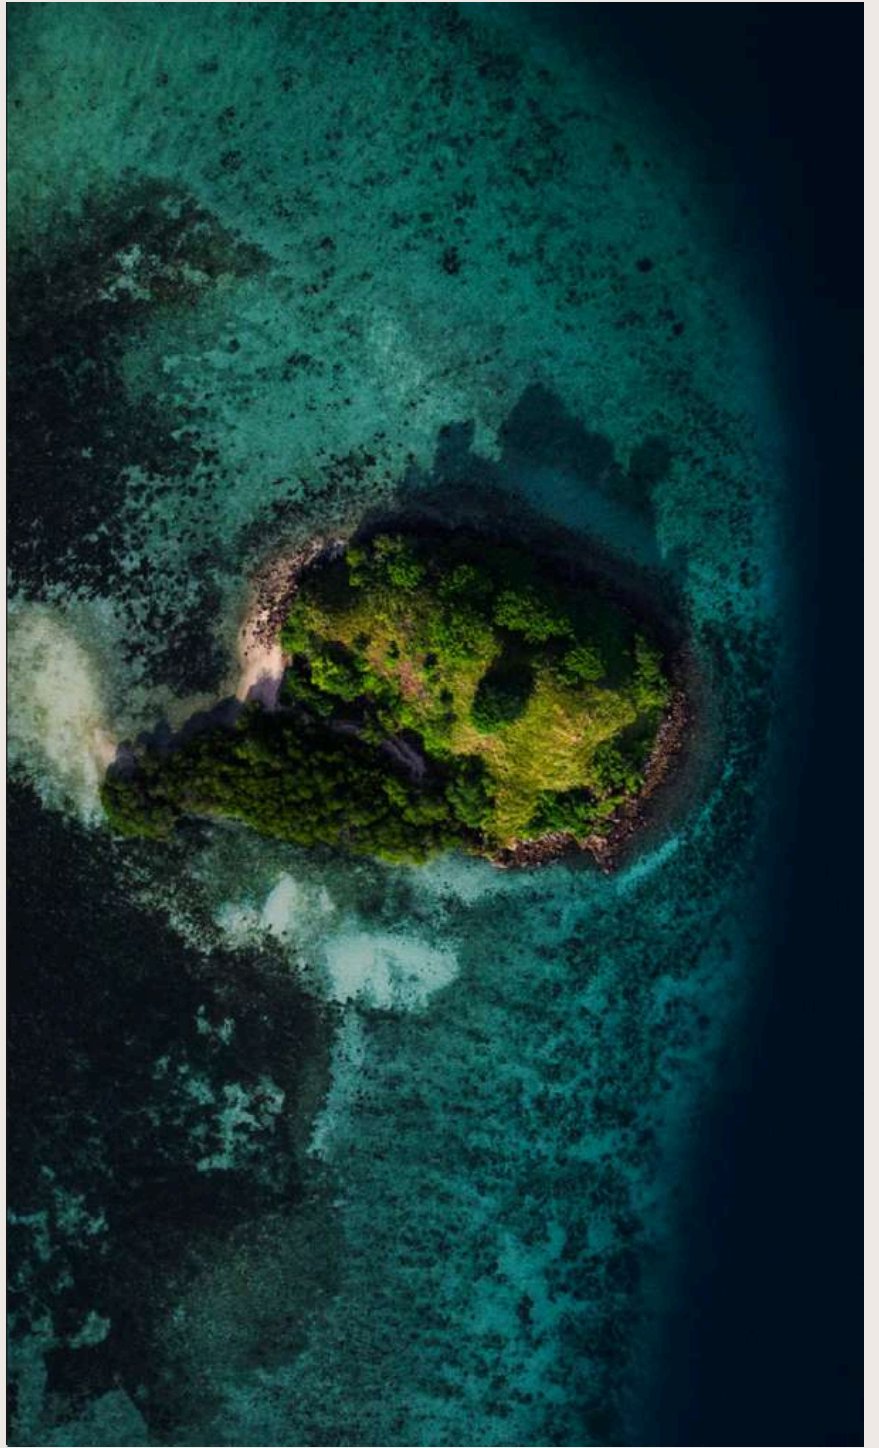

Explore Breathtaking Destinations. Embark on a refined journey with The Oracle Yacht, discovering Indonesia's most extraordinary destinations from Komodo and Raja Ampat to the Banda Sea and beyond.

KOMODO NATIONAL PARK

Komodo National Park reveals itself differently aboard The Oracle. More remote, more intentional. Rugged islands, sweeping bays, and untouched shores unfold at a slower, considered pace, where Komodo dragons roam and the waters teem with life.

Beyond the landscapes, it's the sense of quiet escape that defines the journey. Secluded anchorages, early morning hikes, and unhurried sailing create an experience of Komodo that feels private, immersive, and truly set apart.

RAJA AMPAT

Raja Ampat unfolds with a quiet sense of wonder aboard The Oracle. Towering limestone islands rise from glassy turquoise waters, while beneath the surface lies one of the richest marine ecosystems on earth, alive with color, movement, and remarkable encounters.

Sailing here is about true immersion. From hidden lagoons to silent anchorages, each moment feels untouched and unhurried. With The Oracle, Raja Ampat becomes more than a destination. It is a rare and deeply personal journey into one of the last true frontiers of the sea.

EXPLORE BEYOND

Not all journeys return the same way. With The Oracle Yacht, a handful of rare expeditions invite you beyond Komodo and Raja Ampat, into Indonesia's most storied seas.

The Ring of Fire takes you along a volcanic arc where fire meets water, black-sand shores, rising peaks, and coral depths alive with hammerheads. It is a passage of power and stillness, where every horizon carries elemental force.

Komodo—Alor moves from the legendary dragons of Rinca to the quiet strength of Alor. Between them, pink beaches, shifting currents, and villages weaving ikat by hand reveal a world where nature still writes the rules.

The Spice Islands lead you into history. Nutmeg once worth empires still scents the air, forts guard turquoise bays, and timeless stories linger in the stone walls of Banda. Here, past and present sail together.
